

BLM GROUP USA Announces NewNorth American Headquarters
Customer Support and Training Center

Growing with the market

Event

INSPIRED FOR TUBE

BLM GROUP USA is pleased to advise its customers in the US and CANADA of its investment in larger facilities to support its growing number of existing customers and prospective new customers of its broad line of tube fabricating equipment in North America

An area of 32,000 feet at the customer's service

The company has moved into a new 32,000 square foot state of the art building housing an expanded customer service department, customer training facility, and spare parts inventory. The facility will also house an a broad range of the latest tube fabrication equipment available to its customers as a demonstration laboratory to help improve the productivity and quality of tube fab-

rication processes using the latest generation of CNC benders, end formers, cold saws, and laser based tube cutting systems.

The Grand Opening Ribbon Cutting Celebration will be held at its new facility at 29380 Beck Road, Wixom, MI 48393 on Monday, September 24, 2007 at 10:00am. The event will be attended by customers, state and local elected officials, state and local Economic Development Commission representatives, local suppliers, and representatives of the metal fabrication industry associations including the Fabricators and Manufacturers Association and the Society of Manufacturing Engineers. Also in attendance will be editors from the metal fabrication industry including THE FABRICATOR and TUBE & PIPE JOURNAL, as well as local newspapers from southeast Michigan.

The competitive advantage

Following the ribbon cutting ceremony, the technical staff of BLM GROUP USA will describe and demonstrate its advanced tube fabricating equipment and software for the attendees. .

The presentations and demonstrations will be followed by discussions of how the products of the BLM GROUP are helping companies in Michigan improve their competitive position in the face of increased global competition. Business owners

from three Michigan companies will meet with the state and local economic development representatives and the press to describe how their investment in advanced BLM and ADIGE tube fabrication equipment has helped them improve their business and increase the employment in their companies using the new high efficiency fabrication capabilities of this technology.

The Grand Opening Ceremonies will be followed by a buffet lunch for all attendees
